

Country Coordination and Facilitation (CCF) process:

A multisectoral approach for addressing Human Resources for Health (HRH) challenges

The CCF process entails establishing a mechanism to bring the related stakeholders on one platform to address the HRH challenges jointly developing, financing, implementing and monitoring one national HRH plan that is evidence based, comprehensive and costed.

CCF PRINCIPLES

- Building on the existing mechanism/s;
- Representation of HRH stakeholders' constituencies;
- Coordinated leadership and stewardship;
- Defined roles of relevant stakeholders;
- Coherent HRH policies and priorities;
- Joint efforts and actions;
- Linkages with other coordination mechanisms.

HRH COMMITTEE FUNCTIONS

- Build an evidence base and identify HRH priorities;
- Share information and promote policy dialogue;
- Advocate HRH as a building block of health system;
- Develop comprehensive and costed HRH plan;
- Mobilize resources to finance the HRH plan;
- Monitor implementation of the HRH plan;
- Evaluate and document the progress on HRH.

VALUES

Participation	Collaboration and Partnership
Consistency	Transparency
Accountability	Ownership

OUTPUT

Evidence-based, comprehensive and costed HRH plan (developed, financed and implement)

OUTCOME

Access to adequate number of skilled health workers, distributed according to service requirements

IMPACT

Equitable access of all to essential health services

global health
workforce
alliance
